TRIO TELESCOPIC LIP DOCK LEVELERS

GANDHI
Automations Pvt Ltd

India's No.1 Entrance Automation & Loading Bay Equipment Company

TRIO Telescopic Lip Dock Levelers

Trio Telescopic Lip Dock Leveler (TTDL) is a model wherein the lip is divided into 3 parts, each of which is telescopic in nature, with the capability to extend itself all the way up to 500mm in length, providing a larger contact area between the vehicle bed and dock leveler.

This design is the ideal solution for loading bays catering to varied sizes of vehicles, from smaller pick-up trucks & vans to large trucks & trailers while maintaining maximum efficiency and safety.

The telescopic lip of this model provides additional benefits when compared to traditional lip leveler. In situations where the container is filled up to its maximum capacity, there may be a risk of product damage if traditional lip leveler is used. The telescopic lip leveler ensures added protection through its precise lip technology and eliminates such damages.

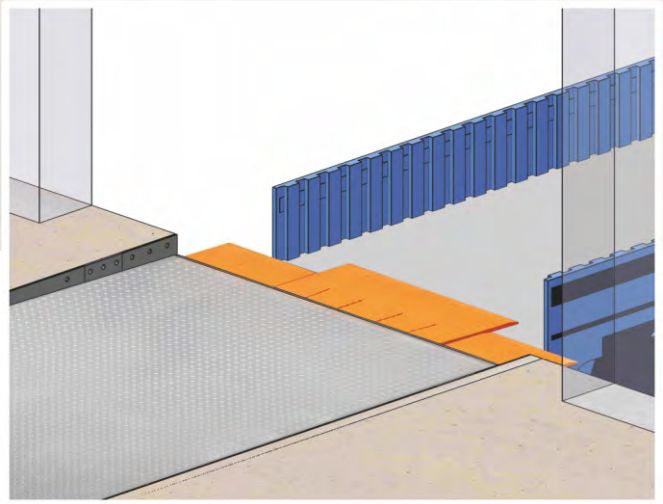
These are built in conformity with Standard EN 1398

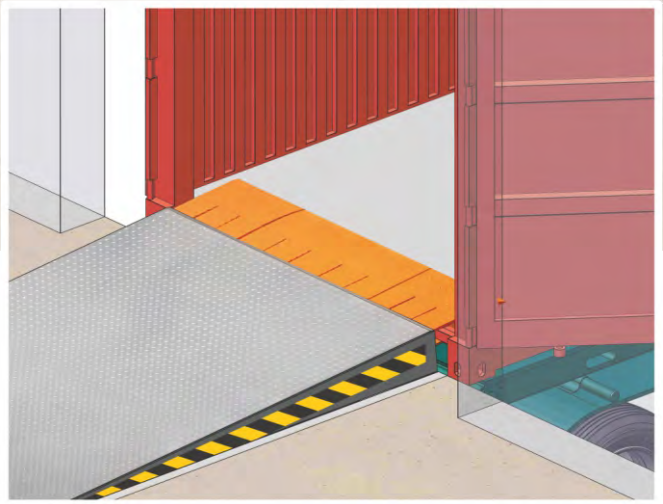
*Standard dimensions in mm of the BASE type, 6t point load (15t evenly distributed)

Model	Platform Width	Platform Length	Lip Length	Pit Width	Pit Height
TTDL 2030	2000	3000	500	2040	960
TTDL 2035	2000	3500	500	2040	1160
TTDL 2040	2000	4000	500	2040	1160

*Other dimensions available on request.

Product Application





The Advantage of Gandhi Trio Telescopic Lip Dock Leveler with a 3-part telescopic lip: You can load and unload Lorries as well as delivery vans at the same dock leveler.

The telescopic lip of the Gandhi trio telescopic lip dock leveler is divided in to 3 sections.

For bigger vehicles with a wider width, the entire approximately 2000mm of the telescopic lip will be opened and extended. For Smaller vehicles the middle section of the telescopic lip that is approximately 1000mm is extended.

City & Delivery Van

For loading and unloading small vehicles, In this position the 1000mm wide middle section of the lip is extended during the operation of the lip, while the side parts remain mostly behind, making it ideal for small city / delivery vans.

Big trucks & Lorries

For loading and unloading large vehicles, In this position the entire width of the TTDL lip (approx. 2000mm) can be continuously extended for Lorries. The TTDL can be used like traditional telescopic lip dock leveler.
